

INTEGRA PC Balance Blending System COLOUR MANAGEMENT EQUIPMENT

*Designed for Inplant
Ink Kitchen and Ink Room
Applications*

Benefits

INTEGRA is a complete Ink Management and Colour Control work station linked to the Vale-Tech Ink Manager™ Windows based software. This compact, integrated computerised balance incorporates all of the benefits of a high specification PC and a high accuracy scale in one package. Its small footprint occupies the minimum of bench space. Built to operate in hostile conditions, the weigh pan is manufactured in a high quality stainless steel with the case protected by a hard wearing, polyester powder coat incorporating a solvent safe, polyester based membrane keyboard.

Integra combines accurate weigh down with a comprehensive Formula database and full Stock Control features. Integra ensures colours are mixed quickly, accurately and consistently every time; saving time, ink and improving quality.

Features

- Minimal maintenance, scale self calibration
- Manage base colours and recipes
- Create and edit recipes
- Overweigh recalculation
- Re-work blends
- Return and scan unused blends to stock
- Print low stock warnings
- Report job usage
- Allocate materials to press, stock or WIP
- Usage and stock reports
- Material Estimation by job
- Prepare designs and jobs for batch mixing
- Traceability by batch number
